

PTT Global Chemical Group Sustainability Management Policy

PTT Global Chemical Group is determined to be a business leader operating in line with the principles of sustainable development. Through operational excellence, transparency and continuous innovation development, PTT Global Chemical Group is committed to building trust in its stakeholders. The PTT Global Chemical Group Sustainability Management Framework provides the foundation for its group-wide approach and aligns with international standards.

The key attributes of the Policy are as follows:

1. Comply with all applicable laws and regulations in all countries of operations and adhere to international practices and guidelines.
2. Operate in an economically, socially and environmentally sustainable manner whilst balancing the interests of a diverse group of stakeholders to ensure sustainable business growth.
3. Raise awareness of PTT Global Chemical Group Sustainability Management Policy to business partners, customers and consumers along with promoting sustainable practices to promote and reduce operational impacts throughout the value chain.
4. Continuously promote innovative production process and product development for the sustainable benefits of the environment and society.
5. Adhere to the principles of corporate citizenship and leverage community livelihoods by utilizing PTT Global Chemical Group's knowledge, expertise and experience.
6. Disclose the Policy, management approach and performance as well as become a role model in shaping a culture of sustainable business conduct.

All management and employees of PTT Global Chemical Group are responsible for contributing, driving and executing the PTT Global Chemical Group Sustainability Management Policy and Framework.

Announced on March 28, 2016

(Mr. Supattanapong Punmeechaow)
President and Chief Executive Officer
