

ENERGY MANAGEMENT POLICY

PTT Global Chemical Public Company Limited (GC) is a producer and refiner of comprehensive petrochemical products and is also the PTT Group's Chemical Flagship. Pursuant to our vision to be a Leading Global Chemical Company for Better Living, GC realizes the importance of energy conservation, efficient use of natural resources, and environmental protection, GC therefore strives to optimize our energy use continuously and in alignment with our nature of business, technology used and sustainable development principle. Accordingly, GC has established the Energy Management Policy as follows:

1) Energy Conservation is a part of the Company's operations and will be implemented in accordance with relevant laws and regulations on the conservation and management of energy and environment.

2) Energy Conservation is a duty and responsibility for which executives and employees at all levels are required to adhere to and also to comply with the energy conservation measures, to make contributions that are beneficial to the development of energy conservation and to monitor and report their energy conservation results which will lead to efficient and cost-effective energy use.

3) GC has stipulated the objectives, goals, and plans for energy conservation, as well as promoting energy conservation projects for the achievement of objectives under the Energy Management Policy in a continued, sustainable, and effective manner. The Goal in energy efficiency performance of the GC Group is to achieve Top Quartile Performance in Benchmarking - consistent with GC's aim to reduce the cumulative greenhouse gas emission from the base year 2020 by 600,000 TPA by 2030, and meet the Net Zero target by 2050.

4) GC will provide support in procuring machineries and equipment, hiring and designing to achieve energy performance improvement, as well as encouraging development of human resources, raising awareness, preparing information, providing budget and other necessary resources, to support and encourage all employees' participation in energy conservation and towards achieving GC's goal in energy conservation and management.

Your acknowledgement and compliance shall be much appreciated.

This policy is effective as of 1 January 2022.

Announced on 25 April 2022

(Mr. Kongkrapan Intarajang)

Chief Executive Officer and President
